## Twilight Tour

### Year 3

**ACSSU044:** Living things can be grouped on the basis of observable features and can be distinguished from non-living things.

### Year 4

**ACSSU073:** Living things depend on each other and the environment to survive.

### Year 5

**ACSSU043:** Living things have structural features and adaptations that help them to survive in their environment.

### Year 6

**ACSSU094:** The growth and survival of living things are affected by physical conditions of their environment.

### Year 7

**ACSSU111:** Classification helps organise the diverse group of organisms

**ACSSU112:** Interactions between organisms, including the effects of human activities can be represented by food chains and food webs.

### Year 8

**ACSHE135:** Solutions to contemporary issues that are found using science and technology may impact on other areas of society and may involve ethical considerations.

### Year 9

**ACSSU176:** Ecosystems consist of communities of interdependent organisms and abiotic components of the environment; matter and energy flow through these systems.

## Twilight Tour

Year 10

**ACSSU185:** The theory of evolution by natural selection explains the diversity of living things and is supported by a range of scientific evidence.

Year 11/12

**ACSBL019:** Ecosystems are diverse, composed of varied habitats and can be described in terms of their component species, species interactions and the abiotic factors that make up the environment

**ACSBL020:** Relationships and interactions between species in ecosystems include predation, competition, symbiosis and disease.
